

# How to send your video to YouTube from your Smartphone

You need a Google Account to sign into YouTube. A Google Account works across all Google products (like Gmail, Maps, YouTube, etc.). If you have used any of these products before, you already have a Google Account.

To sign in, enter the email address you used for those products. If you don't have a Google Account, you are going to create one now.

Here are a few important things to remember about Google Accounts and YouTube:

- You sign into YouTube with your Google Account. To sign in to YouTube, enter your Google Account email and password. After signing up for YouTube, signing in to your Google account on another Google service will automatically sign you in to YouTube.
- Deleting your Google Account will delete your YouTube data, including all videos, comments, and subscriptions.
